PART III **REASONS FOR ALLOWANCE**

1. This application has been examined. Claims 1-37 are being allowed over the prior art of record. Applicant's arguments with respect to previous rejections have been found to be persuasive. Prosecution on the merits is closed in this application.

2. The following is an examiner's statement of reasons for allowance:

The prior art of record (including the submitted prior art) teaches different ways of synthesizing an image using different transformations. However the prior art of record fails to teach, or suggest the claimed limitations of (in combination with all other features in the claims), an image processing method or apparatus having the synthesizing parameters have a defined domain of allowed values**; the complete set of synthesized transforms is obtained by varying the synthesizing parameters over all values within the domain; the visual effect of each synthesized transform is characterized by a set of visual effect parameters; and the visual effect parameters and the synthesizing parameters are related in that the visual effect parameters are generated from the synthesizing parameters for the complete set of transforms**, or the synthesizing parameters are generated from the visual effect parameters for the complete set of transforms, as recited in the independent claims.

Any comments considered necessary by Applicant must be submitted no later than the payment of the Issue Fee, and to avoid processing delays, should preferably accompany the Issue Fee. such submissions should be clearly labeled "comments on statement of Reasons for Allowance".
